Dear Parents/Carers,

You have probably seen the news that the government last week announced some new measures to deal with COVID-19 and also a change to its overall response, moving from the 'contain' to the 'delay' phase of its plan. As before, the advice remains that effective hand hygiene and using a tissue when coughing or sneezing are some of the most effective ways in which we can help reduce the spread of the virus. The school is continuing to do all that it can to minimise the spread with good hygiene and is following all the advice from Public Health and Herts County Council and as such we believe there is no additional risk to students and staff.

Self-isolation and staying at home

As you know the government has widened their advice on who should self-isolate to include those that have coronavirus like symptoms - a new or continuous cough or a high temperature, however mild - should stay at home for at least 7 days to protect others and help slow the spread of the disease. All our staff will be expected to follow this advice, and we ask you to ensure that your children do so too. If your children are absent from school because they are ill, please continue to call the school every day on 01442 211963

In certain circumstances you may be advised by **medical professionals** to keep your child at home even if they are not unwell. If this is the case please let us know and we will support your decision. I understand that parents are concerned about the risk of their children catching Coronavirus and that some may wish to keep children at home even though they have not had any medical advice to do so. However, we cannot agree to a child's absence for that reason alone. All children who are well enough to come to school are expected to continue attending as normal unless advised otherwise by Public Health England.

The possibility of school closure

Some parents have asked whether we could choose to close the school now. If we are ordered to

close the school by Public Health England, because there is a risk to children and staff we will do. If

the government make a decision to close all schools we will do so, otherwise our intention is to stay

open and operate as normal. The Government has made it clear it expects schools to remain open

unless public health advice has been given to close. This is based on the clear advice from the Chief

Scientific Adviser to the Government, Sir Patrick Vallence, on how best to manage this epidemic. We

are sure that you will be supportive of this.

We have made preparations in case the school closes; we have assembled paper resources and will

update the website with information about online learning and free APPs to help your child learn at

home. We fully recognise that if closure is necessary this will have significant implications for many

of our families with issues ranging from the loss of free school means to problems for families

finding suitable childcare. We are here to help, please do come and talk to us if you are facing such

issues.

If you haven't done so already please download the School Jotter App as we will use this to send

information and urgent alerts

Keeping informed

Obviously, we will continue to provide updates as the situation continues to develop and would ask

that you inform the school of any contact your family may have had with a person with symptoms or

who has tested positive. Please do this via telephone on 01442 211963 or via email to

head@holtsmereinfants.herts.sch.uk

This is a worrying time for everyone but rest assured that we are keeping your children safe and

following the best advice available.

Yours sincerely,

Mrs Nicola O'Connell

Headteacher
